

DOCTOR'S TESTIMONY OF HEAVEN

[Steven Weiss, M.D. Mayo Clinic Health Systems, Residency University of Hawaii]

PAT: Good evening, friends. Welcome to The Overcomers.net. The Overcomers is an Internet Ministry with the purpose of teaching God's Word to whomever hungers and thirsts for TRUTH.

Tonight, I would like to share a testimony I received on August 17, 2016 at about 5:15 P.M. [HST]

While waiting on the Lord in prayer, the Lord Jesus dropped into my room. He introduced me to a man who was a doctor here on earth. He had recently arrived in the Heavenly Kingdom of God. In this testimony, I will call him Dr. Steven.

DR. STEVEN speaks....

Pat. I wanted to share my last hours on earth with you because you were such an inspiration to me while I waited to be called home to be with Jesus.

I was not a Christian when I began to listen to your program. But because you were soft, kind, and encouraging, I kept on listening to you. Pat, I was a doctor when I was on earth. I tried to heal people who were suffering of all kinds of diseases. I loved my work, but I didn't know Jesus. How much more could I have done for those who had no hope of getting well!

Pat, please tell your audience that there is no better way to serve humanity than with Jesus Christ as a partner. How I wish I could have heard about him earlier in my life.

Nevertheless, my sister in Christ, your words of encouragement and your prayers convinced me that this was the real deal. **Jesus is the Lord of Lords and the King of Kings.** I accepted Jesus when I prayed with you at the end of one of your programs. When I prayed for the first time, I felt the greatest joy and peace that I have every felt in my life encompass me. How could I doubt that this was anything else but the real thing!

Taped on February 2, 2017

But as you know, I wanted to know how long I had to live. I kept calling you without saying a word. You seem to know what I was thinking, by the words you prayed for me. I had “unforgiveness” in my heart. I had to make it right with my family members and ask them to forgive me..., which I did. After that was done, I was ready to go. I had no more ties to life on earth.

Now that I am on the other side and with Jesus... I realize how accurate the stories of people who came to heaven and went back are.

PAT: Can you tell me what happen to you when you passed out of your body?

DR. STEVEN speaks....

I met my guardian angel. His name is Colloidal (His name refers to silver and gold.). He allowed me time to say goodbye to my wife. She couldn't hear me, but I told her how much I loved her and would always love her. I hugged each of my children who were at my bedside. Then, I had to leave.

PAT: How did you leave?

DR. STEVEN: My guardian angel linked arms with me and we shot up into the air like a rocket. We passed the sun, moon, and many stars.

PAT: Do you know how long you traveled before arriving in heaven?

DR. STEVEN: I just asked Jesus how long it took. He said that with my newly transformed spirit body, it takes about 5.5 to 6 hours.

SLIDE #3: CELESTIAL CITY OF NEW JERUSALEM

(Photo by Hubble Space Telescope. 26 Dec 1993)

DR. STEVEN: Then, I saw a bright star that kept getting larger and larger as we neared it. The Hubble Space Telescope picture of Heaven is accurate. That is what it looks like from a distance.

We landed on the outer edge of Heaven and walked towards a humungous gateway. I am thinking it looked like more than a mile wide. There were other people who were also entering the gateway.

We had to walk through the River of Life to get into the garden area called Paradise. That dip into the River of Life was amazing. I could breathe and talk under water. Colloidal talked to me all the way across the bottom of the river. The riverbed has colored stones that look like jewels. The sensation of being in the water was amazing. Colloidal said that I was being cleaned of all bad memories I had while I lived on earth. When we walked out of the river, I was completely dry and clean. Wow! What an experience!

PAT: What happened next?

DR. STEVEN speaks.... I was introduced to life in Paradise. I was taken to the large round white Library of Heaven. I was shown how to use the library so I can learn about God's Kingdom and grow in my relationship with the Lord God. I learned how to worship God. Then, when the trumpets sounded for all of Heaven's saints to come to attention, we heard what sounds like a news broadcast. We hear about the number of souls who accepted Jesus on earth that day. We hear about the battles between good and evil on earth. Pat, it is true. PRAYER IS the KEY to winning spiritual battles against evil. Tell your audience to pray as much as possible.

PAT: Stephen, The Lord told me that you passed away yesterday (August 16, 2016). I was so sad and wished I had a chance to talk to you before that happened. After your last phone call, I kept hoping you would call me again, because I felt such a desire to pray and comfort you. I felt you were in pain. So, I cried out to the Lord for the pain to stop, The Holy Spirit prayed in a heavenly language through me. Peace returned to my soul thereafter. But this Conversation Relieves And Blesses Me. Thank You, Steven!

DR. STEVEN: Pat, after being sick for an extended time on earth, it really is an indescribable experience to be healthy and whole again. The transition from one world to the next-- from the earthly body to the spiritual body is painless. Pain is only felt on earth, while we occupy the human body. Our human body is only a shell of flesh and blood that limits us. In this spiritual body, I can travel 2000 earth miles in a few seconds... but considering the Nano second while traveling through space, it still took us 5 to 6 earth hours to get from Hawaii to the heavenly planet.

PAT: That means Heaven must be trillions of miles away.

DR. STEVEN: Yes, for men who like to travel, there are no boundaries to time travel that you are allowed to do through the Library in Heaven. We can use the Time Travel machines called Chariots and travel to any destination in the history of God's Universe.

PAT: have you traveled on one of those time machines? Will you describe the experience?

DR. STEVEN: THE LIBRARY has files that list destinations a person may choose. My guardian angel showed me how to use these. The key to the time machine looks like a DVD disc. We walked to an area where there is a long hall with doors. Each of these doors opened to a small room with a chariot mobile. Colloidal chose a room with a two-seater chariot mobile. With directions from Colloidal, I slipped the DVD key into a slot (like you would a car key). Because the time machine and heaven are in a spiritual world and we are all spiritual beings, we flew through the confines of the small room out into space filled with stars.

PAT: Where did you choose to travel to? Or have you not taken a trip yet?

DR. STEVEN: Oh, no. I love to travel. That was one of the first things I wanted to test out. I looked for the DVD on God creating the universe. Wow! What a show! I am sitting in the chariot seat with my guardian angel. I saw God as a bright light. I heard his voice as the thunder on a stormy night. When he spoke, His Word instantly created what He spoke and it came into being. Talk about fireworks on a brilliantly clear night... only this was a mega-fireworks of many brilliant colors and forms until the creation cooled down and was placed in a rotation system through space.

PAT: What did you experience that was unexpected to you as a new saint in heaven?

Q-4--SLIDE #4: HEAVENLY PLANET

DR. STEVEN: Well, Pat, the most exciting experience was arriving on the heavenly planet. Everything about heaven is brilliantly clear with beautiful and colorful plants. Earthlings are called saints in heaven. The GLORY OF GOD constantly lights up the whole planet. God is Light and He lights up His Kingdom. (There is absolutely no darkness here.) The fragrance of heaven's air is like flowers. The flowers, trees, and landscape are many times larger than earth's. And there is an angelic choir that sings 24/7. The music sounds classical and very conducive to worshipping God.

PAT: Steven, I have heard that everyone has a mansion or home in heaven. Is this true?

DR. STEVEN: Yes, Pat. The size of the homes in heaven is determined by the work you do for the Lord while you are on earth. Since I was saved through your ministry, I had not done much for the Kingdom of God. But I have a home that is perfect and designed to my liking. It reminds me of my home in Manoa.

PAT: Do you have furniture? Bathrooms?

DR. STEVEN: No, in heaven, we do not need furniture or bathrooms. Our spiritual body is renewed every moment. If I want to sit down or rest, I can just sit in the air or lie down on the air. So when we visit with other saints in heaven, everything around us is like a perfect world, perfect weather, perfect water from the River of Life, and the fruit trees that line the river of life have fruits that we can eat anytime.

PAT: Jesus, my sister MARIEANN said she tasted roast meat in the fruit she ate while she was in heaven. What is the roast meat taste from?

JESUS: The Father created flavors that were pleasing to man while they lived on earth. Therefore, when a saint eats from the life-giving trees planted along the river, the fruit rejuvenates his spiritual life. The meat flavor in the fruit is not really meat, but the fruit is pleasing and satisfying to those that eat it.

PAT: are there many Trees of Life or just one?

JESUS: The original Tree of Life from the Garden of Eden is planted near the Throne of God on the Third Heaven. There are twelve kinds of trees planted along the River of Life. All of the fruits on the trees are available to any of the saints who want to eat of it.

PAT: Steven, do the saints in heaven have a daily schedule to follow? Are they given responsibilities or jobs? Stephen, do you have a job now that you are a citizen-saint in heaven?

DR. STEVEN: Yes, I have been introduced to my heavenly schedule, which is very exciting and new to me yet.

I mentioned that we hear what I call a “news report” of all the souls that have been saved on earth each day. We all cheer and clap when we heard the good news. I have also realized while listening to these news reports, that when Christians pray on earth, their prayers become strength and energy to the angels who are battling against the evil ones on earth. For example, when you fast and pray for a loved one who is not saved, the Spirit of God makes answering your prayer a PRIORITY. The angels are immediately sent out to accomplish that prayer request.

As for a job, I have been assigned as an educator on the health value of the different plants and herbs that exist in Paradise. I am guided and taught by my angel-supervisor. I oversee the gardeners who care for the gardens in heaven. My medical education on earth has qualified me to teach about plants and herbs rather than man-made chemicals and pills.

PAT: How many hours do you work in a week?

DR. STEVEN: I put in about three to four hours a week. I am also learning about God’s plants here in Paradise. Time goes by so quickly, that I often forget about it and

spend time with the gardeners and children who wander by, enjoying the plants and trees that are so beautiful.

PAT: Since you mentioned plants and herbs, do people in heaven eat three meals a day? Do you prepare meals in your homes?

DR. STEVEN: Anyone who wants to may invite a friend to partake of the food that is prepared daily for all of heaven's population in the Banquet Halls near their homes. Since we experience no night in heaven, we are living in a perpetual daylight life. Every saint in heaven put in time in the job assigned to him or her. There are saints that work in the banquet halls with angels. The population of heaven is so immense, I think that is why we only work 3 hours per earth's weekly timetable.

The angels serve as the teachers, counselors, and trainers of the saints in all walks of life in Heaven. I noticed that they are taller than human beings, especially when I overlook a large congregation of worshippers on the Sabbath day.

PAT: Do the angels live in Paradise with the saints?

JESUS: Heaven is a spiritual planet. The Word talks about three heavens, but in reality, the three levels of heaven have subdivisions, one upon the other, like a condominium building. There are four sublevels of living areas for the saints in heaven. The largest level is Paradise. After you cross the River of Life and walk into the garden area, you are on the first level of heaven which is home to anywhere from 83% to 90% of heaven's population. The percentage changes because every earth day, heaven welcomes thousands of new citizen-saints. This also means that Heaven is expanding constantly to make space for the growing population.

The angels live on another level of heaven when they are not working with saints. My Heavenly Father also has created levels for heaven's armies. All of the millions of white horses live and graze as well as train with their riders on those levels. Some caretaker angels live on the level that the horses do.

Those levels are always busy. Warrior angels train and care for their horses. Horse and rider teams train to become one body, and young riders practice using their weapons while riding at top speed.

PAT: Are the riders of Heaven's Army all angels?

JESUS: No. Some of them are saints who were trained in their earthly life as military personnel. They will be a part of Heaven's Army when it returns with Jesus Christ to fight the enemies of Israel during the Armageddon War.

PAT: Jesus, a relative wanted to know how old her 3-year-old daughter who died during heart surgery is now? Where are babies who were aborted or died prematurely? Do they grow and mature in heaven like we do on earth?

JESUS: There is a large garden or park where millions of babies and children are chaperoned and taught by angels and saints. This park is located on the first level of Paradise. When a child's mother arrives in heaven, she becomes her baby's caregiver. The maturity of the child is accelerated when the child learns about God's laws and

commandments. A child also mature as he hears the Bible stories children on earth hear in church. Angels and saints serve as Sunday School teachers in God's Kingdom. Your mother, Pat, who was a Sunday School teacher on earth is a children's teacher now. This is her heavenly job.

PAT: A relative, who lost her three-year-old daughter during surgery, over 50 years ago, asked me, "How old will my daughter be when I see her again"?

JESUS: More than likely, she will be near the age she was at when she passed away. This answer can vary and may not apply to all children. Our Heavenly Father makes individual decisions as each child's spirit is brought to Him from earth after their death.

PAT: What about children who are born with handicaps? Will they still be handicapped when they live in heaven?

JESUS: No. I have seen My Father perform miracles upon crippled and abnormal babies. My Father's healing power flows from His hands into baby's body and they become absolutely normal and whole.

PAT: Lord, may I ask Stephen for his earthly name and permission to contact his wife so I may attend his funeral?

DR. STEVEN: Pat, my earthly name was Dr. Steven Weiss. My wife asked me whether I wanted to limit the funeral to my family. I said, "Yes." But you may call her and give her my love. [Phone number disconnected. The Holy Spirit revealed that she has a cell phone now.]

PAT: Thank you, Steven. Is there anything else I can do for you?

DR. STEVEN: Please tell my wife that I love her very much. Also, that I am waiting for her to join me.

PAT: Is she a Christian?

DR. STEVEN: I don't know. I wish you would introduce her to The Overcomers Ministry program. She knew that I liked to watch The Overcomers, so she probably will not be surprised to hear from you.

PAT: Thank you, Stephen. Thank you for spending this time with me. I will share your testimony on the Overcomers program. Perhaps your testimony will change people's hearts to accept our Lord's gift of Eternal Life.

DR. STEVEN: Thank you, Pat.

PAT--Overcomer friends, this vision was a gift to me when the Lord Jesus said He wanted me to meet a doctor who had just arrived on the heavenly planet. Eight months before Dr. Steven passed away, I prayed for him on the phone about 4 or 5 times. The last time was the day before he passed away. So, to me, these conversations were a culmination of a heartwarming and peaceful encounter.

Good night, my friends, until we meet again....
